

INOUT

Core Solution

MISSION

INOUT is your solution and partner as a complete logistics provider. Our mission is to offer the best options and services, meeting the needs and expectations of our customers, providing customized and efficient solutions. We are committed to the practice of ethical business, contributing to the socioeconomic development of the communities where we operate.

Our target is to provide a different and personalized service to each customer, offering support and guidance throughout the cargo transportation process and to be recognized as a reliable, dedicated, transparent and high quality partner.

VISION

WHO WE ARE

- We are a Brazilian company specialized in freight forwarding and logistics chain;
- Our logistic solution processes are effective, as we execute them with high quality, minimal bureaucracy and without compromising the safety of the operation;
- All this care is intended to create and maintain a solid and lasting partnership through responsible work, based on the experience gained over the years.

WHAT IS OUR SERVICE NETWORK ?

We have a global network of reliable and experienced partners around the world, which allows us to offer cargo transportation services anywhere on the planet.

Combining innovation and expertise in the Brazilian market, our services meet the highest quality standards and are perfectly in tune with the current requirements of the segment.

We deal with small companies as well as multinational giants, with customized solutions to ensure the satisfaction of each client.

WHY WE STAND OUT

Through solid knowledge and experience in the area, we can offer a personalized service to our clients with full advice. We understand that each client has specific needs and that is why we strive to serve everyone individually, offering tailored solutions for each situation. We pride ourselves on being a company that puts our customers' needs at the forefront and we go to great lengths to ensure their satisfaction.

INOUT

Core Solution

SEAFREIGHT TRANSPORT

SEAFREIGHT TRANSPORT

- Seafreight Transport from all the main ports in the world and in different modes; Ex. different types of containers, reefer, project cargo, break bulk, Ro-Ro, bulk, etc.;
- FCL - Full Container Load;
- LCL - Less Container Load (load smaller than a container);
- Triangular Operations, Trade Shows and Exhibitions;
- Liquid cargo (Tanktainer and Flexitank).

INOUT

Core Solution

AIRFREIGHT TRANSPORT

AIRFREIGHT TRANSPORT

- Whether importing or exporting, the advantages of speed and security make air transport stand out among the others, which allows you and your company to receive the goods with greater assertiveness and peace of mind.

- This shipping/receiving method is used more frequently for emergencies, perishable goods, specific products and routes, as well as when there are delays in production and deliveries.

INNOVATION

Core Solution

ROAD TRANSPORT

ROAD TRANSPORT

- Solutions for road transport in different scenarios so that your cargo is collected and delivered in the manner and location as scheduled. We have partners specializing in products according to your needs, including chemical, industrialized, perishable, etc;

- Use our integrated solutions for road transport, whether for domestic transport or under the customs transit regime (DTA).

INNOVATION

Core Solution

PROJECT CARGO

PROJECT CARGO

We can offer customized transport and logistics solutions for your project:

- Break Bulk, Ro-Ro, sensitive, oversized cargo, full and partial charter;
- Packaging, stuffing and inventory;
- Structural, route and feasibility study;
- On-site loading and unloading;
- Rental and management of lifting machinery;
- Rental and management of cranes, forklifts and special lifting devices.

INOUT

Core Solution

WAREHOUSING

- Strategically located in the most important places, we offer our customers all services inherent to storage, such as packaging, fractionation, transshipment and cross docking;
- All this through partners and contracts with the best terminals.

INTERNATIONAL INSURANCE

- We facilitate the contracting and management of cargo insurance during international transport in Brazil or abroad, so that it is covered from door to door against accidents and reducing the possibilities of loss and damage;
- Our team can also assist you with registration and assistance in the event of accidents, for your greatest convenience at all times during the journey of your cargo in accordance with the contracted coverage.

CUSTOMS CLEARANCE

With the necessary knowledge and constant updating of customs legislation, we offer an agile and uncomplicated clearance process as possible. We work to ensure that all documentation and procedures are correct and compliant, minimizing the risk of delays or penalties. Our specialized knowledge of different customs regulations and procedures helps simplify bureaucracy, providing a more efficient and cost-effective foreign trade experience for our customers.
